ILLEGIB

MEMORANDUM FOR: Chief, DA Management Staff

FROM: John M. Ray
Director of Logistics

SUBJECT: Guidance for the 1989/90 OMB Budget Estimates
Submission

REFERENCE: Memorandum for DDA Office Directors from C/DA
Management Staff, dated 1 July 87 same subject

In response to paragraph 3 of reference the Office of Logistics (OL) has shifted base positions to begin new activities as follows:

25X1 In FY 87 of the positions allocated to OL, 10 were shifted from their activities in order to establish [redacted] Project Office.

25X1 Although the establishment of the OL Flying Squad does not specifically represent a shift of base positions, it does have an overall impact on OL resources. During the present fiscal year, approximately [redacted] positions would have been required to accomplish more than [redacted] days of TDY performed by OL careerists to meet worldwide priority requirements. It should be noted that this significant effort had a considerable impact on the amount of overtime expended by individuals who were required to take up the slack for those on TDY. *

25X1 [redacted]
John M. Ray

25X1 *In addition, we have expended considerable resources to support Project [redacted]
